STATEMENT OF WILLIAM J. GETZ
IN SUPPORT OF AN AMENDMENT TO
AN APPLICATION FOR LICENSE
WJUX(FM) [formerly WXTM(FM)] - MONTICELLO, NEW YORK
CHANNEL 259A - 6.0 kW - 91 m HAAT

Prepared For: Monticello Mountaintop Broadcasting, Inc.

I am a Radio Engineer, an employee in the firm of Carl T. Jones Corporation, with offices located in Springfield, Virginia. My education and experience are a matter of record with the Federal Communications Commission.

This office has been authorized by Monticello Mountaintop Broadcasting, Inc. ("Mountaintop"), to prepare this statement and a revised Section II of FCC Form 302-FM in support of an amendment to the pending Application for License (FCC File No. BLH-941031KD) to cover the WJUX(FM) [formerly WXTM(FM)], Monticello, New York, outstanding Construction Permit (File No. BPH-910214MD, as modified by BMPH-920214IC and extended).

By letter dated April 13, 1995, Mountaintop informed the Federal Communications Commission that the WJUX(FM) main antenna suffered a lightning strike on April 4, 1995 and the station began operation with an emergency transmitting antenna on April 12, 1995 (see attached). The main antenna, which was specified in the original Application for License, was damaged beyond repair and a new 3-bay nondirectional antenna was installed in its place on April 22, 1995. In addition, the entire length of the transmission line was replaced because of extensive damage as a result of the lightning strike. Radio

STATEMENT OF WILLIAM J. GETZ
WJUX(FM) - MONTICELLO, NEW YORK
PAGE 2

Station WJUX(FM) began operation with the new antenna/transmission line on April 22, 1995. This amendment sets forth the technical specifications of the new transmission system.

A new ERI LPX-3E, 3-bay, nondirectional antenna replaces the original 3-bay Cablewave CFMLP-3 nondirectional antenna. Because the ERI antenna is rated by the manufacturer with a slightly greater power gain than the Cablewave antenna, this amendment also reflects a slight decrease in Transmitter Power Output (TPO) to maintain the authorized Effective Radiated Power. The new antenna was installed in the same vertical aperture as the old antenna at the identical radiation centerline height above ground level. There are no further changes in system gains or losses. A complete description of the technical parameters of the WJUX(FM) transmission system is provided in Section II of the attached, revised, FCC Form 302-FM.

It is submitted that the WJUX(FM) main facility is in compliance with FCC technical standards and is operating in accordance with the terms and conditions as set forth in the outstanding Construction Permit.

Mr. William F. Caton, Acting Secretary
Federal Communications Commission

Room 222
Washington, D.C. 20554

Dear Mr. Caton:

This letter is submitted on behalf of Monticello Mountaintop Broadcasting, Inc., licensee of WXTM(FM), Monticello, New York. The main antenna suffered a lightning strike on April 4, 1995. On April 11, 1995, the damage to the main antenna became apparent and an emergency transmitting antenna was installed near the top of the existing tower structure. In order to maintain service to the public WXTM(FM) was forced to commence operation with the emergency transmitting antenna on April 12, 1995. The purpose of this letter is to request authority to continue operation with the emergency antenna until the necessary repairs are completed on the main transmit antenna.

The technical specifications of the emergency operation are as follows:

Transmitter Power Output	2.5 kW
Transmission Line	300 feet, 7/8-inch foam dielectric
Transmission Line Efficiency	77.6%
Emergency Antenna	1-bay, horizontal polarization only, gain=0.5
Effective Radiated Power	1.0 kW
Antenna Height	557 meters Above Mean Sea Level

The addition of the emergency antenna will not contribute to the overall height of the existing support structure and all painting and lighting requirements on the tower shall be maintained. The predicted 1.0 mV/m contour of the emergency operation will be wholly within the licensed WXTM(FM) 1.0 mV/m contour.

In the event there are any questions concerning this matter, please contact the undersigned.

Sincerely,

William J. Getz
